Skin Scuba diving can be challenging, but it is also extremely fun. The scuba diving means the sport or pastime of swimming underwater using scuba gear. Generally scuba gear is oxygen container, and swimming goggles.

(Related with fun) \$0, 2hr
This photo is just about swimming. There aren't any rules at swimming. Just enjoy it splashing in water!

Activities in Maldives- Second day

Related with Cultural activities, and historical origin

Male city is small, but it is big in other reasons. Male city has traditional market that has history, and also a museum which teach us the more cultural origin. It takes about 4 hours, and it is free.

Activities in Maldives- Third day

Deserted island tour is little bit expensive, but you can enjoy it well because, you can think that one whole island is you, and your families! Moreover try some sports on the water to double fun, and happiness! (4hr or more, 800\$, and for fun)

I recommend non powered aquatic sports to children. Non powered aquatic sports aren't that dangerous, than powered aquatic sports. Quilt around the sea near deserted island by canoe, or a kayak.

I recommend powered aquatic sports to adults, who enjoy speed. Powered aquatic sports are more thrilling than non powered sports. Feel the blowing wind by parasailing and jet skiing.

Activities in Maldives- Last day

Last day is snorkelling. Snorkelling is similar with scuba dive, but snorkelling doesn't go into deep water, and also it is not challenging, so it is good for beginner. If you are really lucky, you can see turtle! Touch, and feed some mild fish carefully, but don't give too much stress to them. Enjoy the last day of maldives!
